Result (Income - Expenditures): € 13.860,70

3. Explanation

In 2023, Martus Foundation took a significant step in improving healthcare in Kahama, Tanzania. Co-founder Marin personally traveled to Tanzania, bringing valuable medical tools and supplies. This effort not only contributed directly to the community's healthcare but also raised awareness about the need for improved medical facilities.

Thanks to our collaboration with Wilde Ganzen, we received substantial financial support, enabling us to expand our activities and increase the impact of our projects. This partnership helped us develop plans for future projects focused on sustainable healthcare improvements.

In 2023, our focus was on quick actions that produced immediate results. We implemented effective initiatives that not only addressed the community's immediate needs but also laid the groundwork for larger and more impactful projects in the coming years. These future

projects will aim to strengthen access to healthcare and improve the overall health situation of the people in Kahama.

We are grateful for the support of our donors and partners, who enable us to continue our work and make a difference in the lives of people in Tanzania. Together, we are committed to a future where healthcare is accessible to everyone.
